

ABSTRACT OF THE DISCLOSURE

A television receiver serves as a control ~~apparatus for remote controlling an~~ AV which remotely controls a device in a home network system, and is provided with a remote controller for ~~remote~~ remotely controlling the television receiver itself. The television receiver displays, on a display device, a graphical user interface (guide panel) for graphically guiding the functions assigned to the plural numeral keys provided in the remote controller. Such configuration allows the user to ~~remote~~ remotely control the desired device in the home network system in a simple manner with limited operation sequence.
